Colds, Coughs, and Hoarseness. BRINGIRD, MASS., 20th Dec., 1855.
DR. J. C. ATEN: I do not hesitate to say
the best remedy I have ever found for
Coughs, Hoarseness, Influenza, and the
concemitant symptoms of a Cold, is your
CHEMAY Perronas. Its constaint use in
may practice and my family for the last
ten years has shown it to possess superior virtues for the treatment of these
complaints. EBEN KNIGHT, M. D.
A. B. MORUTLEY, Eag., of Urch. N. V. writes; "I

A.B. MORTLEY, Esq., of Urick, N. Y., writes: "I have need your Pectoral myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a had cold I should sconer pay twenty-fire dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.
Springrield, Miss., Feb. 7, 1856.
BROTHER ATER: I will cheerfully certify your Pectoral is the best remedy we possess for the cure of whooping cough, croup, and the cheet diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our pecole.

end your medicine to our people.
HIRAM CONKLIN, M. D. AMOS LEE, Esq., MONTRIES, I.a., writes, 3d Jan., 1536:
"I had a tedious Indicenta, which confined me in doors six weeks; took many medicines without relief; finally tried your *Pecteral by the advice of our clereyman. The first dose relieved the soccases in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Dactor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

Wast Marchester, Pa., Feb. 4, 1836.
Sin: Your Cherry Pedoral is performing marvellons cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years.

HENRY L. PARKS, Morchant. last forty years.

A. A. RAMSEY, M. D., ALBRON, MONROE Co., Iowa, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your Cherry Petronal for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most con-

vincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the Cherry effects upon trial.

Petoral affords relief and comfort.

Asron House, New York Citt, March 5, 1856.

Docron Ater, Lowatt: I feel it a duty and a pleasure to inform you what your Cherry Petoral has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no ald we could procure gave her much relief. She was steadily falling, until Dr. Strong, of this city, where we have come for service, recommended a trial of your medicine. We bless his kindness, as we do your skill; for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard.

ORLANDO SHELBY, OF SHELITYLES. Pertoral affords relief and comfort.

Chasemptices, do not despair till you have tried Aran's Chasary Pacronal. It is made by one of the best medical chemists in the world, and its cure all around us beneak the high merits of its virtues. — Philodelphia Ledger. Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs purgasses are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel disease. They purge out the foul humors which breed and grow distemper, stimulate singgish or disor-dered organs into their natural action, and impart healthy one with strength to the whole system. Not only do tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. nafest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my reconvertions contribute impressly to the relief of my

for the SPERDY CURR OF

Coughs, Colds, Influenza, Crivip, Hourseness, Bronchitis, Diseases of the Bowels arising from Cold, Incipient Consumption, and for the relief and (if at all possible) cure of Patients in advanced stages of the latter disease.

Catarrh, or Common Cold, as it is familiarly called, is worthy of study, and serious enough to be avoided, if possible. Dr. Bell says: "I will not say that Colds are to our inhabitants what the Plague and Pellows Fever are to other countries; but, I can aver confidently that they usher in disease of greater complicity and mortality than these latter."

In the danger of Bronchitis and Preumonia, *hick often follow in the train of neglected cold, and in Phthissis Pulmonalis, the tubercular irritation of which is developed by the same cause, we surely have proof and argument sufficient for attention, not only to the preventive means, but also to the curative ones of a disease, which however mild in its inception, is diffectly or indirectly productive of such diversified and alarming results.

ing results.

This lesson should be particularly impressed on those who have any constitutional tendency to Pulmonary Consumption.

The use of the Balsamic Cordial, agreeably to the di The use of the Balsamic Cordial, agreeably to the directions accompanying each bottle, will readily cure
the most distressing case of cough.

Coughs sometimes proceed from a disordered or dyspestic state of the stomach, in which case the German
Bitters should be used. In cases of weakness, or general debility of the system, resulting from a protracted
cough, the German Bitters will be found of great beneft.

In cases of acute Inflammation of the Lunga, the In cases of acute Inflammation of the Laugs, the prominent symptoms generally are—hurried and painful respiration, imperfect arterialisation of the blood, cough and expectoration, attended with excitement of the heart, fever, various derangements of the digestive and urinary systems, prostration of strength, &c. The lungs may be diseased without any of these symptoms being prominent, but the marmur produced during inspiration and respiration, and the alternate contraction and expansion of the chest, evident to both sight and feeling, all furnish most important physical signs in case of disease, and should receive prompt attention. This disease is usually caused by a cold settling on the lungs, and the one of the Balsamic Cordial soom performs a curre.

From these figures, it will be seen that nearly one-fourth of the total deaths in the country are caused by consumption, to say nothing of the numerous other diseases springing from a "alight cold," The proprietors are in the possession of certificates showing that the Balsamic Cordial has effected cures where all other remedial means have failed. Wheat and Flour.

THE subscribers have completed the most perfect. arrangement that can be made for the sale of wheat and Flour, and during the remainder of this year will devote their attention almost exclusively to the sale of these two articles, and they can say to their patrons, with certainty, that they will realize as much net money by shipping here as to any market beyond Atlanta, and will do it with less risk and in shorter time. As to the peculiar advantages of our market every one is familiar who knows its locality.

We will accept 30 days bills on Wheat, payable here or at Augusta, for three fourths the value of shipments, accompanied by Raw Road receipts. We think it advisable for shippers of Flour to draw most of their bills at 45 and 60 days, as more time is required for the sale of Flour than for Wheat.
